7. (previously presented) A sticker, comprising:
a sheet material having two opposite major surfaces;
and first and second adhesive regions both disposed on one of said major surfaces;
the first adhesive region being disposed adjacent an edge of said sheet material;
the second adhesive region being spaced from the first adhesive region and an opposite edge
of said sheet material by first and second areas of said major surface of said sheet material,
respectively, at least said second area being free of adhesive material;

wherein a width of said second area, as measured in a direction from the edge adjacent to
the first adhesive region to the opposite edge, is larger than a width of said second adhesive region,
as measured in said direction.

8. (previously presented) The sticker according to claim 7, wherein the width of said
second area is at least 15 mm.

9. (previously presented) The sticker according to claim 7, further comprising a third
adhesive region inside the first area, said third adhesive region being spaced from the first and
second adhesive regions, respectively.
